

VIBRANT HEALTH®

WHERE SCIENCE & NATURE MEET

POWERFUL Immune Support Formula

*Contains Four Powerful
Immune Boosters:*

- IMMUNOGLOBULINS
- BETA GLUCANS
- LARCH ARABINOGALACTANS
- RED MARINE ALGAE

LOOK WHAT'S INSIDE

VIBRANT HEALTH®

WHERE SCIENCE & NATURE MEET

IMMUNE DEFENSE™

Immune Defense combines Larch Arabinogalactans, Immunoglobulins, Beta 1,3 and 1,6 Glucans and Gigartina Red Marine Algae to create a most comprehensive and effective daily immune boosting supplement. Almost 80% of all disease-causing microbes enter the body through mucosal tissue. The largest mucosal surface is the lining of the gastrointestinal (G.I.) tract. Immune cells located in the digestive tract walls, are your first line of defense, producing immunoglobulins that help protect us against potential infections carried by unsavory organisms and toxins that may inadvertently arrive with food or drink.*

Immunoglobulins are antibodies, that is, specialized proteins that either stop the invader or identify it so other members of the immune system can destroy it. Orally supplemented immunoglobulins of bovine origin contain antibodies that assist and conserve the human body's own natural output of immunoglobulins generated by immune cells lining the G.I. tract. Conservation of immune resources in the G.I. tract permits more immune resources to be available elsewhere in the body.*

The immunoglobulin material in Immune Defense also contains transferrin, endotoxin-binding proteins and other acute phase proteins that provide added immune support. Larch arabinogalactans and beta glucans activate macrophages and NK cells, and trigger cell-to-cell messengers, thereby stimulating immune activity deep within the body. RMA extract provides sulfated polysaccharides that contribute targeted immune support.*

► **Directions** As a dietary supplement, take two (2) to six (6) tablets daily in divided dosages, or as directed by a health professional.

Supplement Facts		
Serv. Size 1 Tablet	Serv. Per Container 60	
	Amount per serving	% DV
Bovine Immunoglobulins (45% IgG) (Immuniolin®, U.S.)	500 mg	**
ResistAid®, Larch tree (trunk) Arabinogalactans	250 mg	**
Beta-1,3 & 1,6 glucans (yeast)	10 mg	**
Gigartina, Red Marine Algae extract	5 mg	**
*Percent Daily Values based on a 2,000 calorie diet		
**Daily Value not established
